International Company Formation

At York Place, we understand that clients may seek the advantages offered by different corporate structures and locations abroad. Through our extensive network of associates and correspondents worldwide, we can incorporate, maintain and search companies in any location.

Our international department is now located in our London office. With many years of experience, we can set up your offshore company with the minimum of fuss and guide you through the often complex procedures. We understand your needs, act discreetly and with extreme care in all our dealings on your behalf.

Why choose an International company formation?

Companies want to make the best use of resources, minimise costs and maximise on results and profits. Incorporating outside the UK can provide benefits in respect of the following:

- **Tax efficiency and minimisation** – it can be advantageous to utilise the low or fixed corporation tax levels of some jurisdictions;
- **Protection of assets** – assets held by a non-UK company can enjoy additional anonymity and an enhanced separation of ownership from the beneficiaries;
- **Confidentiality** – banks and the registering authorities are understanding of the sensitivity of the international market place and competition, and respect the confidentiality of the corporate structures;
- **Global status** – incorporation in the international arena raises the profile of the company to customers and competitors;
- **Trading worldwide** – the international company facilitates worldwide trade.

In addition to forming and maintaining companies offshore we also offer advice on tax structures. We have an in-house team including international tax consultant, Emilio Scintu, who can advise on and help achieve the best tax structures for our clients.

Emilio's expertise, added to the already formidable bank of company secretarial support within Stanley Davis, offers clients a complete secretarial and management support service with no limitation as to jurisdiction.

For more information on setting up a company please contact Shital Mehta on 0207 554 2261.

International Company Search

The York Place international reporting service provides all available information from jurisdictions throughout the world. For companies incorporated outside of Great Britain the amount of available information varies greatly. For a quote or further information please contact Susan Yew on 020 7554 2253.
