Companies House Strike Update

The strike on Monday and Tuesday 8th/9th of March went ahead as planned. Online services have not been affected too badly and most incorporations were completed within reasonable time scales.

Statement of Capital

We continue to receive queries over how to complete a statement of capital. The statement is now required on various Companies House forms whenever capital is changed in any way but presents problems for companies who have ever issued shares at a premium. The government are currently consulting on this matter and the Institute of Chartered Secretaries and Administrators have recently submitted their official response with a recommendation that

companies no longer be required to disclose the share premium figure other than on the annual accounts. The Department for Business Innovation and Skills have acted quickly to concerns over this matter and it is hoped that it will be resolved soon.
